Proficiency at Microsoft Excel is critical for accountants at every level. Developing superior Excel skills can help accelerate your growth within the profession.

We're offering an exclusive opportunity to participate in a complimentary Excel Skills Webinar, conducted by Michael Brown, Becker’s resident Excel guru. This webinar will focus on Excel’s integration to the CPA Exam in 2018 and the common Excel tools that employees expect you to know, including training in using pivot tables, lookup functions and hot keys.

A CPA can never be too good at this hugely important platform for accountants. Let Becker help you excel at Excel!
