Books/Book Chapters

7. (2 Chapters) - “Integral Control”, “Derivative Control” - Process Control Circuits, NIIT (National Institute of Information Technology) Limited, New Delhi, 2003

Journal Papers

No. 6, Nov-Dec 1998.

24. Pradeep, S., Subbarao, K., “Does the Phugoid Frequency depend on speed?” *AIAA Journal of Guidance,

**Peer Reviewed Conference Papers**

1. Ghassan M. Atmeh, Isura Ranatunga, Dan O. Popa, Kamesh Subbarao, Frank Lewis, and Patrick Rowe,
“Implementation of an Adaptive, Model Free, Learning Controller on the Atlas Robot”, *American Control
Conference*, Portland, OR, June 2014.

2. Ghassan Atmeh, Isura Ranatunga, Dan Popa, Kamesh Subbarao, “Indoor Quadrotor State Estimation using
Visual Markers”, *The 7th ACM International Conference on PErvasive Technologies Related to Assistive

2014, National Harbor, MD.

National Harbor, MD.

6. Henderson, L., and Subbarao, K., “Inverse Crime” and Model Integrity in Unresolved Space Object
Identification”, *Spaceflight Mechanics Meeting, American Astronautical Society*, AAS-14-205, Santa Fe,
NM, January 2014.

Seeking”, *51st AIAA Aerospace Sciences Meeting including the New Horizons Forum and Aerospace Exposition*,
2013, 10.2514/6.2013-1033

8. M. Brodecki, K. Subbarao, Q. P. Chu, “Formation Flight Control System for In-Flight Sweet Spot Estimation”,
*51st AIAA Aerospace Sciences Meeting including the New Horizons Forum and Aerospace Exposition*,
2013, 10.2514/6.2013-1037

9. Rege, A., Dennis, B., Subbarao, K., “Parametric Study on Wing Flapping Path of a Micro Air Vehicle Using
Computational Techniques”, *51st AIAA Aerospace Sciences Meeting*, 7-10 January 2013, Grapevine, TX,
USA, AIAA 2013-0953.

Wing Flapping Motion”, *ASME International Mechanical Engineering Congress and Exposition*, San Diego,
CA, 2013.

56. Goss, J. D., Subbarao, K., “Inlet Optimization for High Mach Number Flows with Magnetohydrodynamics Effects”, *AIAA Region IV Student Conference*, Albuquerque, NM, 7-9, April, 2005. *(PAPER WON THE SECOND PRIZE)*

65. Subbarao, K., “The Attitude Control Problem, Re-Visited”, John L. Junkins Astrodynamics Symposium, College Station, TX, 23-24 May 2003, AAS 03-263

Technical Reports
